SHERLINE PRODUCTS INCORPORATED 1974

myWorkshop Instructions for Sherline Customers

1. Sherline customers will have to use the Request Account Activation link by following the steps in the instructions below (from MASSO documentation).

2. You will need to register your board # (for example 14443). The board number is the same as the serial # on your control.

3. When registering your board, you will have to use your email and your own password (or create a password) as the software is still listed as "sold to dealer" and we cannot change this.

MASSO myWorkshop Documentation

Step1: Go to the myWorkshop Sign-In page with the following link: https://myworkshop.masso.com.au

Log in using your account email address and password (see Figure 1).

If your initial account registration link has expired, please select Request Account Activation link and a new registration email will be sent.

Please be patient as it can take several hours before you may see the activation email.

Please check your Spam folder and do not request a new activation or it will send a second email and the link in the first email will not work when it arrives.

If you cannot remember your password, please use the Forgot Password link.

If you do not receive your **Password Reset email**, please check your Spam folder.
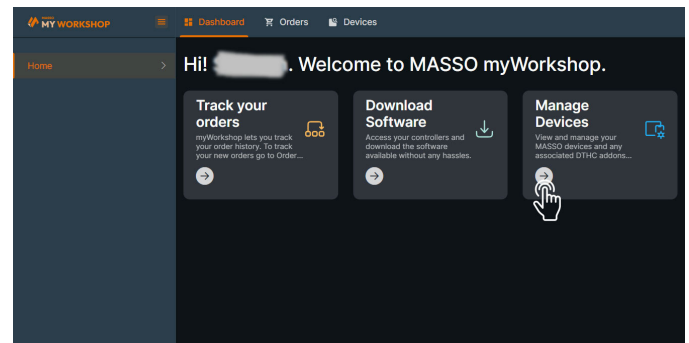

Step 2: Click Manage Devices

Step 7: Email Software.

To have the software update emailed to you, click the Email icon on the right side of the screen next to the software version you wish to download (see Figure 7).

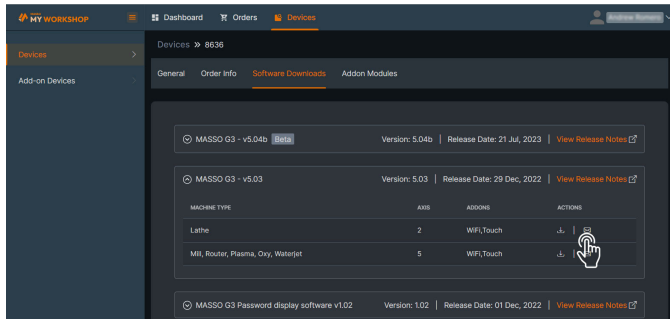

FIGURE 7—The Email icon looks like an envelope.

The **Email Software Download Link** box will open (see Figure 8). The Email field will already be filled in with your registered Email address. However, you can enter a different address if you wish to have it sent elsewhere.

Click OK and you will receive an email with the attached Software file.
